**To the memory of my beloved wife, Martha,  
is this work dedicated; her support and abiding  
love made possible my family history odyssey and this collection.**

## **FOREWORD TO CHUNN AND ALLIED FAMILIES**

**(Foreword to Pages Nos. 1 through 15,597, compiled as of April, 1996, by Thomas  
Harder Chunn)**

### **PART I**

#### **How to Use an Inter-Library Loan to Find Your Chunn Ancestor Via CHUNN AND ALLIED FAMILIES**

1. First, ask your local librarian to contact the Tennessee State Library and Archives (hereinafter "TSL&A") at Nashville, TN. Their current address is: Tennessee State Library and Archives, 403 7th Avenue North, Nashville, TN 37219 (tel. 615-741-2764). Ask TSL&A to send your local librarian the first CHUNN AND ALLIED FAMILIES microfilm reel containing the Foreword and compilation of letter file contents pages which were microfilmed during or after April, 1996. When your local library receives the microfilm reel, they will usually call you.
2. Next, search the index of Chunn names set forth as an attachment to the Foreword. Using such names of ancestors as you or your family members may be familiar with, try to find the name of your ancestor(s) on the index of Chunn names. Use the dates of birth or death and the state or country references on the index, particularly if the Christian names are similar or if you only know that your ancestor lived in a particular state or country. The index of Chunn names sets forth the letter file number (same as the ancestor's card file number) which corresponds to that letter file in which there appears a treatment of that particular ancestor.
3. Next, using the letter file number that appears to correspond to the name of your ancestor, proceed to the compilation of letter file contents pages that follow the foreword, and find that numbered contents page(s) that bears that letter file number.
4. Next, research carefully the letter file contents page(s) and look for reasons that would suggest to you that that letter file treats the ancestor that you are seeking.
5. Next, when satisfied that the letter file contents page that you have found holds good prospects of finding your Chunn ancestor, then again ask your local librarian to contact TSL&A and request the microfilm reel containing the letter file that you have identified.
6. If the microfilm letter file you thought would contain your ancestor turns out not to refer to your ancestor, study more of the letter file contents pages for clues and request your local librarian to contact TSL&A for such other microfilm reels as would appear to contain the letter files that you additionally want to review.

7. As soon as you find the letter file(s) that treat your ancestor, ask your local librarian to return the first reel of CHUNN AND ALLIED FAMILIES to TSL&A, to the end that other persons will not be delayed in their efforts to utilize CHUNN AND ALLIED FAMILIES. Moreover, do your best to have all microfilm reels promptly returned to TSL&A as soon as your research is completed.

8. You may find that your local librarian has or will have the ability to copy pertinent portions of CHUNN AND ALLIED FAMILIES for local use, and the pursuit of any such local copying is certainly recommended.

## PART II

### A General Description of CHUNN AND ALLIED FAMILIES

The Chunn and Allied Families (sometimes referred to as "Chunns of America") data, appearing in microfilm form as "Accession No. 346, Genealogical Data, Chunn and Allied Families, ca. 1600-1970, c.a. 500 items, 1 reel", Guide to the Microfilm Holdings of the Manuscripts Section, Tennessee State Library and Archives, Revised Second Edition, 1978, set forth copies of card files which I created in the course of compiling genealogical information on the Chunn family and certain allied families. These card files reflect the names of individuals, with references to the named and numbered letter files created by me which contain data applicable to the individuals identified in these card files. Certain individuals identified in these card files became sufficiently important to my collection efforts to result in a separate letter file bearing that person's name being created and a file number being assigned to that person's letter file. My collection efforts dictated that other individuals identified in these card files not be assigned a separate letter file bearing their name and, instead, be identified and noted as appearing within the named and numbered letter file of such individuals as had been assigned a numbered letter file bearing such individual's name. In essence, then, these previously microfilmed card files operated to inform researchers of the existence of my genealogical collection, the general structure and extent of it, but did not enable researchers to have access to the specific documents contained within the named and numbered letter files within this collection. (NOTE: In the future, I intend to file an "APPENDIX TO CARD FILES", which will set forth copies of additional card files not presently appearing in Accession No. 346 and not appearing in this compilation as of April, 1996.)

With my current (April, 1996) filing of Documents Nos. 1 through 15,597 with the Tennessee State Library and Archives for microfilming purposes, I would hope that, through the microfilm facilities provided by the Tennessee State Library and Archives, researchers will now have and utilize the ability to access each document presently contained within all named and numbered letter files of my collection. This April, 1996, filing has been preceded by my pursuit of many months of review and organizational efforts, during which time I went through each named and numbered letter file. A contents page(s) form was prepared and inserted into the front of each named and

numbered letter file in an effort to give the researcher a quick means of identifying the major contents of each such letter file. Thereafter, beginning with the first named and numbered letter file and continuing through the last such file, each such letter file document, including each of the contents pages, was consecutively numbered (from 1 to 15,597), so that the entire collection now constitutes an identifiable whole. As a general guide, I am advised that each microfilm reel contains approximately 2,500 pages of data.

Accompanying this foreword is an alphabetical index of Chunn (and allied family) names, which identify by Christian and surname entries persons treated in this collection. These persons are generally further identified in the index by their dates of birth (and/or death), by the state or country in which they resided and by the number of the letter file which primarily treats each such person.

As this collection, as microfilmed, was expected to contain many reels of microfilm, I sought to facilitate researchers' abilities to identify those portions (reels) which their particular research required by setting forth in one place copies (in ascending numerical order) of all of the contents pages of each named and numbered letter file. These copies of all contents pages follow hereafter and are part of this foreword; and they are expected to appear on a microfilm reel which precedes those microfilm reels setting forth the entire collection as Pages Nos. 1 through 15,597.

There are several instances where the subject's ancestry could not be established back to the first immigrant, John Chunn, or even to his grandsons. Where I could not establish the line, then the subject's ancestry was stopped with the oldest known ancestor, and with the name of the oldest ancestor usually being supplied by one or his or her descendants.

### PART III

#### Acknowledgments

At this writing, I am 82 years of age, still enjoy relatively good health, and count among the most pleasant of my memories the associations which I have had with those who have shared or sought family history information. Along the way, I have been assisted by countless numbers of people who have freely given of their time and experiences to assist my own quest for information. To all who have helped, I remain forever grateful; but I would be remiss if I did not give special acknowledgment to the following persons:

Mrs. Lee Adessi  
Flossie Andrews  
Euroll Andruss  
Mary Chunn Wilkinson Babendreer  
Dorothy Chunn Ballard  
Worlie Ballard

NOTES TAKEN FROM CARD FILES

HENRY CHUNN WAS BORN @1846. HE WAS A DESCENDANT OF SYLVESTER VIA HENRY SR; NEIL CHUNN AND HIS WIFE CATHERINE (JACKSON) CHUNN, FILE #1631. SEE 1850 CENSUS WHERE HENRY IS LISTED AS ONE OF NEILS CHILDREN. ALSO SEE HANNAH CHUNN LISTED IN MAURY CO. CENSUS FOR 1860.(PAGE 171, 24TH DISTRICT., LINE 8. IN THIS CENSUS HENRY AND HIS TWO SISTERS APPEAR TO BE LIVING WITH THEIR GRANDMOTHER, BELIEVED TO BE THE MOTHER OF NEIL CHUNN. WALTER CHUNN REPORTED THAT NEIL CHUNN HAD A SON WHO WAS KILLED IN A SALOON BRAWL AT EITHER POTTSVILLE, THEN CALLED WATCH OR A PLACE JUST NORTH OF POTTSVILL CALLED RALLY HILL. THE WRITER, AS OF 1969, HAS NOT YET LEARNED IF THIS HENRY WAS EVER MARRIED AND IF HE WAS MARRIED, WHETHER OR NOT HE HAD CHILDREN. I AM NOW PERSUADED TO BELIEVE THAT HENRY WAS PROBABLY KILLED BEFORE HE WAS OF AGE-- POSSIBLY ABOUT 1864 TO 1866.

FILE NUMBER 2935 FOR                     

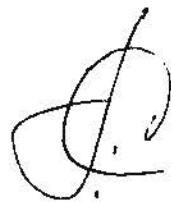

NEAL N. COTNER

CONTENTS PAGE

MR. AND MRS. NEAL COTNER SPENT SIX MONTHS TRAVELING AROUND THE COUNTRY COMPILING RESEARCH. THIS IS THE RESEARCH THAT WAS GIVEN TO MR. CHUNN FOR HIS FILES. THE INFORMATION, COMPILED BY MR. NEAL COTNER AND HIS WIFE GINNY, IS ARRANGED BY STATES.

STATE	PAGES
ARKANSAS	14956-14957
LOUISIANA	14958-14969
MARYLAND	14970-14972
MISSISSIPPI	14973-15014
NORTH CAROLINA	15015-15104
SOUTH CAROLINA	15105-15107
VIRGINIA	15108-15117
CENSUS INDEX	15118-15123

MR. AND MRS COTNER CERTAINLY DESERVE SPECIAL CONSIDERATION FOR THEIR VALUED COLLECTION OF CHUNN DATA. NO DOUBT THEY SPENT MUCH TIME AND MONEY TO ACHIEVE THEIR GOAL OF FINDING MR. COTNER'S CHUNN FOREBEAR. IT IS MY PROFOUND HOPE THAT MR. COTNER WILL BE ABLE TO CONFIRM THAT ONE OF SYLVESTER CHUNN'S SONS IS HIS CHUNN FOREBEAR.
