Date Completed: July 7, 1998
Accession Number: 94.237
Location: XV-B-1; XV-C-3
Microfilm Accession Number: 1574

MICROFILMED

INTRODUCTION

The Katherine Waits Ewing Genealogical Collection, ca. 1920-1979, was donated to the Tennessee State Library and Archives by Ms. Fletch Coke on behalf of the Society of Colonial Dames, in February 1994. The collection consists of genealogical materials compiled by Ms. Ewing, and as processed consists of 49 Hollinger manuscript boxes.

There are no restrictions on the collection, and single copies of materials may be made for individual or scholarly purposes.

SCOPE AND CONTENT NOTE

This collection was created by Katherine W. Ewing a longtime member of the National Society Colonial Dames of America (NSCDA) She joined the Colonial Dames in 1938 through the lineage of John Paxton of Pennsylvania. Mrs. Ewing began research in the 1920s and enjoyed it so much that she continued it. Although she worked for patrons over the years, it was not until the 1970s that the NSCDA required all of her time and she had to turn away some clients.

Most inquiries began with the request for a Bible record, if available. In her files copies of these Bible records, charts, obituaries, a few photographs, cemetery listings and other miscellaneous material can be found. Some of the research was written on any scrap of paper at hand. These scraps were known by Mrs. Ewing as her "working papers," and were perhaps retained as clues should someone else later want to work on the same line. Her files are organized so that she could easily transfer material or make copies for a new client.

Mrs. Ewing kept meticulous records and as near as possible these have been kept in the order she established. Some additional family names have been added to the folder title if it appeared that sufficient material warranted it. During the early years of her research Mrs. Ewing drew maps showing the migration of the families. These maps were greatly prized by her correspondents as noted in their thank-you notes for her research. She retained tile rough drafts of these maps and they can be found in tile files. They were often colored and her workmanship was excellent. Unfortunately, failing eyesight and time constraints ended this part of her research.

In her correspondence with friends who may initially have been clients and other researchers, she lamented the idiosyncrasies of patrons, archives and libraries, as well as the condition of the early county and state records in Tennessee and other states. During the early years she worked primarily with original records in dimly lit research areas with poor copy facilities, if any. She often had to transcribe the original records by hand or place an order with an official who may have been indifferent to genealogical research.

After Mrs. Ewing's death some of her files were sold or given to interested individuals.

The NSCDA acquired -the remaining files and housed them at Travelers' Rest in Nashville, Tennessee. The NSCDA donated the collection to the State Library and Archives in 1994.
