**MICROFILMED**

## INTRODUCTION

This finding aid focuses on the genealogical papers of Dr. Alvis Milton Holladay, professor of chemistry at Peabody College, pioneer in the microcircuit/electronics industry, and space scientist with the National Aeronautics and Space Administration, born in Carroll County, Tennessee. Spanning the years 1938-1994, although the bulk is largely concentrated between 1952-1982, the papers contain the genealogical research compiled by Dr. Holladay, in collaboration with his brother James Allen Holladay (1907-1974), over twenty five years in the production of his self-published book, *The Holladay Family*, 1983.

The genealogical materials contained in the collection include the Holladay and Crider families as well as collateral lines (Brinkley, Camp, Laycook, Lee, Sugg, Utley). The Holladay family is traced back to John Holladay (the Ranger) of Spotsylvania, Virginia, who died in 1742, and then to Thomas Holliday of Chalford, Gloucestershire, England.

Ina addition to the usual genealogical data, other items in the collection include copies of Civil War correspondence, court records, maps, publications, school records, speeches, U. S. Department of Agriculture (Soil Conservation Service) records and various writings.

The materials in this finding aid measures 12 linear feet. There are no restrictions on the material. Single photocopies of unpublished writings in the Alvis Milton Holladay Genealogical Papers may be made for scholarly research.

## SCOPE AND CONTENT NOTE

The Alvis Milton Holladay Genealogical Papers, containing approximately 1600 items, span the period 1938-1994, although the bulk is largely concentrated between 1952-1982. The collection is composed of clippings, correspondence, genealogical data, maps, notebooks, obituaries, parish registers, photographs, and negatives, publications, U. S. Department of Agriculture (Soil Conservation Service) records, writings, and several miscellaneous items.

The major portion of the collection consists of genealogical data relating to the Holladay (Holaday/Holiday/Holliday) and Crider (Kreider/Greider) families and collateral lines (Brinkley, Camp, Laycook, Lee, Sugg, Utley). The Holladay family is traced back to John Holladay (the Ranger) of Spotsylvania, Virginia, who died in 1742, and then to Thomas Holliday of Chalford, Gloucestershire, England.

Genealogical information about the various family lines will be found under the general heading of "Genealogical Data," but also may be noted within "Correspondence" and "Notebooks" subject headings.

There are numerous photographs and negatives. Where possible, the photographs have been identified and their respective negatives have been matched accordingly. These negatives are housed in the vault of the Tennessee State Library and Archives.

All of the materials in the collection relate to genealogical information except for those that are listed under "U. S. Department of Agriculture (Soil Conservation Service)." These documents were generated as the result of the thirty-two years of field service by James Allen Holladay, an older brother of Dr. Holladay.

The research work of Dr. Holladay and his brother eventually culminated in the publishing of four books on the Holladay family history: *The Holladay Family*, 1983; *Seven Holladay Histories*, 1988; *Other English and Early American Holladays*, 1988; and *Three English Holladay Tycoons*, 1996. These volumes may be found in the library holding of the Tennessee State Library and Archives.

## **BIOGRAPHICAL SKETCH**

### **Alvis Milton Holladay**

- 1915      January 15, born to Carlie B. and Josie Crider Holladay in Huntington, Tennessee
- 1921-1930    Educated in Hilliard Elementary School in Huntington
- 1930-1934    Attended and graduated as valedictorian from Huntington High School
- 1934         Worked on the family farm
- 1935-1937    Attended Memphis State University
- 1937-1939    Joined the Civilian Conservation Corps and attended Bethel College
- 1939         June, graduated from Bethel College with a Bachelor of Arts degree
- 1939-1940    Attended Peabody College in Nashville
- 1940         June, graduated from Peabody College with a Masters of Arts degree in Chemistry
- 1940-1942    Taught high school science at Emma Sansom High School, Gadsen, AL
- 1940         December 26, married Anne Newman
- 1941         Summer, attended Teachers College, Columbia University, New York
- 1942-1944    Taught in 33<sup>rd</sup> Detached Air Corps Unit at Peabody College
- 1942-1954    Taught nurses at Peabody and Nashville General Hospital periodically
- 1942-1946    Graduate work in chemistry at Vanderbilt University and Peabody College
- 1946         June, graduated with a PhD degree from Vanderbilt University
- 1946-1952    Taught chemistry at Peabody College

- 1953        Became acting head of Chemistry Department at Peabody College
- 1954        Became consultant in research on miniature electrolytic capacitors and helped found International Electronic Industries, Inc. (IEI)
- 1955-1956 Took leave from college to research capacitors
- 1956-1962 Director of research at IEI
- 1962-1964 Consulted in industry
- 1964-1983 Worked at the National Aeronautics and Space Administration (NASA) at Huntsville, Alabama, and helped establish a research laboratory on microcircuits while working on various space vehicles
- 1970        Removed to Nashville, Tennessee
- 1983        Retired, but continued to consult with industry on microcircuit production
- 1996        January 4, died at his home in Brentwood and interred at Mt. Olivet Cemetery in Nashville

Organizations:

Member of the Peabody College Development Council  
Member of the American Chemical society  
Fellow, American Association for Advancement of Science  
Member, Tennessee Academy of Science  
Listed in "American Men of Science"
