INTRODUCTION

The papers of Augusta Thekla (Hasslock) Kemp, geologist, paleontologist, and science teacher of Seymour, Texas, were given to the Tennessee State Library and Archives by her sister, Miss Clara Whorley Hasslock of Seymour, Texas, and Nashville, Tennessee.

The materials in this finding aid measure .42 linear feet. There are no restrictions on the materials. Single photocopies of unpublished writings in the Augusta Thekla (Hasslock) Kemp Papers may be made for purposes of scholarly research but reproduction on a large scale is restricted.
SCOPE AND CONTENT

The Augusta Thelka (Hasslock) Kemp Papers, consisting of one volume and about 110 items covering the years 1617-1967, are composed of correspondence, genealogical data, documents, two obituaries, pamphlets and reprints, sketches, and a manuscript copy of Mrs. Kemp’s *Pegasus Limping*, a book of her poems, essays, reminiscences, etc.

Correspondence includes two letters written in 1849 by Thekla (Dombois) Hasslock (Mrs. Kemp’s grandmother) describing her trip to the United States as an immigrant, her stay in New Orleans, and the river trip to St. Louis and her farm nearby. She makes most interesting observations on the appearance of the people and the economy of the day.

There are about 45 letters ordering the book, *Pegasus Limping*, from former students and friends of Mrs. Kemp, all with high tribute to her as an inspiring teacher and a beloved person of great integrity. This book was compiled, edited and published after her death by her sister, Miss Clara Whorley Hasslock, and is a collection of poems, essays, reminiscences, etc. that Mrs. Kemp wrote for her own pleasure. Included also are a few sketches she wrote for her nephew when he was seven years of age.

Genealogical data on the Hasslock and Dombois families traces both back to the early 1600s in France and Germany. Included are copies of about 25 birth, death, and marriage certificates from Germany, covering the years 1689-1847, for the Hasslock family. There are a few historical sketches on various early ancestors in France and Germany.

The reprints and pamphlets deal with Mrs. Kemp’s work as a paleontologist. There is a reprint from the Journal of Paleontology, Vol. 36, No. 5, September, 1962, of her article, “The Stratigraphic and Geographic Distribution of Cephalopod Genera in the Lower Permian of Baylor County, North Central Texas.” Two pamphlets describe the Southwest Collection at Texas Technological College in Lubbock, Texas, which includes the Augusta Hasslock Kemp Papers, 1882-1966, “…materials reflecting her life as a teacher in Seymour, a geologist, and an author. Mrs. Kemp discovered a new fossil, which was named *Knightoceras kempae* in her honor.” The March, 1964, ALCALDE, the University of Texas Alumni Magazine, on page 26 notes “An extensive collection of geological materials including about 5,000 specimens of fossil invertebrates has been given to The University Bureau of Economic Geology for study. The materials were from the geological library and collection of Mrs. John F. Kemp (Augusta Hasslock, ’21, ’26) of Seymour…”

Included is the obituary, October 6, 1877, of Mrs. Kemp’s grandfather, Herman Wilhelm Hasslock, who was born in Germany and came to this country in 1849, settling near St. Louis, Missouri and moving to Nashville, Tennessee in 1861. There is an obituary with a picture of Mrs. Kemp, 1963.
BIOGRAPHICAL NOTE

Augusta Thekla (Hasslock) Kemp

1901    Received teaching diploma from Peabody College, Nashville, Tennessee

1902    Received B.S. degree from the University of Nashville

1910    Received M.S. degree from the University of Chicago, majored in Geology

1914    Taught in Nashville, Tennessee; Arizona; Oklahoma and Texas

1920    Married John Franklin Kemp, her school principal

1920    They moved to Seymour, Texas; he, superintendent of schools until his retirement in 1940; she, head of science department until retirement, 1943

ca. 1925    Organized the Explorers’ Club at the Seymour High School for the outside study of geology, insects, astronomy, etc.

1963    July 18. Died in Seymour, Texas
