MICROFILM ONLY

INTRODUCTION

The Masonic Grand Lodge of Tennessee collection of Annual Returns of Local Lodges, 1800-1971, is a microfilm copy of original records held at the Grand Lodge. The collection consists primarily of annual returns submitted to the Grand Lodge by each local lodge, of which there have been more than 600 since the organization was established.

This collection contains 135 reels of microfilm and was created from an earlier microfilm copy owned by the Grand Lodge. This earlier collection also contained modern financial and administrative records of the Grand Lodge. Those records have been omitted from this copy.

The Grand Lodge has placed a 20-year restriction on the use or publication of any documents in this collection dated after 1950. Those records will be free of restriction effective January 1, 2020.

SCOPE AND CONTENT

The Masonic Grand Lodge of Tennessee collection of Annual Returns of Local Lodges, containing 135 reels of microfilm, spans the period 1800-1971. The collection is composed of documents relating to the local Masonic lodges in hundreds of communities throughout the state.

The records are organized by lodge number, and the records of each lodge are preceded by a target page bearing the lodge name and number. Some lodges have no records on file, while for others hundreds of pages have been preserved. The material in each lodge's file is roughly arranged in chronological order. An index to lodges by location and name is provided herewith.

The majority of documents in the collection are annual returns listing the names of members of the lodge, and showing the names of officers and members added, removed, promoted or deceased. However, in many cases additional correspondence and documents pertaining to the lodge can also be found.

For more information about the Masonic Order in Tennessee, see *The history of Freemasonry in Tennessee, 1789-1943* by Charles A. Snodgrass (Nashville, Ambrose Printing Col, [1944]).

REEL LIST

Note: Since these reels were copied from an earlier collection, references within the microfilm to other reel numbers (such as “continued on reel 17”) will not be relevant.
