INTRODUCTION

The collection occupies 2 cubic feet of shelf space, and numbers approximately 1250 items. Single photocopies of unpublished writings in the William Henry McRaven Papers may be made for purposes of scholarly research.
SCOPE AND CONTENT NOTE

The William Henry McRaven Papers-- Addition spans the period 1918-1959. The collection consists of brochures, cards, correspondence, maps, menus, music, newspaper clippings, notes, poetry, printed materials, scrapbooks, and a ticket.

The bulk of this collection is concentrated on the various travels by William Henry McRaven. Mr. McRaven visited several areas of the United States and collected materials on each site. Areas included in the materials range from the state of Texas to the country of Canada.

Also of interest in the collection are the scrapbooks. The scrapbook titled "Along the Way" contains short stories written by Albert Hines which were published in the *Nashville Tennessean*. The scrapbooks titled "Little's Cartoons" consist of editorial cartoons drawn by Tom Little which were also published in the *Nashville Tennessean*.

Of interest in the correspondence are the letters from R.B. Mayes to Mr. McRaven which consistently speak of the coming of the end of time. These letters use biblical references and various predictions of the day to illustrate the possible second coming of Christ. Mr. Mayes says that he does not believe the predictions, but he is constantly talking about them.
