RECORD GROUP 111

Date Completed: June 27, 1987

MICROFILMED

SCOPE AND CONTENT NOTE

This record group comprises some of the earliest automobile registration in Tennessee. These registrations are in two forms. The first is a standard, printed form which was issued by the Secretary of State. The applicant completed this form and returned it, along with the application fee, to the Secretary of State. The Secretary of State would then send a certificate of registration to the court clerk in the applicant's county of residence. The second type of request for registration is merely a letter or short note in which the applicant gives the information concerning his automobile. These are marked on the back with the applicant's name and the registration number and seem to have been handled just as the printed forms.

The registrations are arranged alphabetically by name of applicant and county. Often, there are several documents which pertain to the same automobile. These are clipped together so that the researcher can obtain a more complete history of the auto and its owner. This record group should be of some aid in genealogical research.

These records have been microfilmed.
