## **SCOPE AND CONTENT NOTE**

Record Group 1554, Department of Insurance and Banking, Bank Condition Reports, 1916-1966 contains 146 volumes of condition reports. These volumes are arranged by reporting periods that occurred generally every six months. The bulk of the reports were submitted in June and December although some early volumes indicate report dates of March or April.

These reports indicate the solvency of the bank involved in the report. Such items as assets, liabilities, capital accounts and loans were tabulated and reported to the State Banking Division.

The volumes are arranged by city and then by name of the particular bank. When researching these records, it is advisable to determine the city and exact name of the bank in question. For instance, the Farmers and Merchants Bank of Adamsville, Tennessee is listed under the city of Adamsville. In addition, many volumes include as a first page a report of condition in the statewide banking system.
