Administrative/Biographical History

The Tennessee General Assembly created the Board of Podiatric Medical Examiners in 1931. Its mission is to safeguard the health, safety, and welfare of Tennesseans by requiring those who practice the profession of podiatry within this state be qualified. The Board interprets the laws, rules, and regulations to determine the appropriate standards of practice in an effort to ensure the highest degree of professional conduct. The Board has the authority to issue a license to qualified applicants who have completed appropriate education and successfully completed required examinations. The Board is responsible for the investigation of alleged violations of the Practice Act and rules and is responsible for the discipline of licensees who are found guilty of such violations.
