MICROFILMED

SCOPE AND CONTENT

Record Group 19 contains records of the Department of Conservation, particularly the Division of Game and Fish. The correspondence and speeches of Commissioner Jim Nance McCord (1953-1959) make up the bulk of the Commission records, although there is a book of minutes.

The Division of Game and Fish existed under the Conservation Department from 1937 to 1949. Correspondence and informational material shed the greatest light on the developing game and fish management programs. Financial records, material relating to legislation, and minutes supplement the Game and Fish records.
