RECORD GROUP 103

Processed by:

John H. Woodard, Jr.
Archival Technical Services

Date Completed: June 23, 1987

SCOPE AND CONTENT NOTE

This record group consists of a sampling of official correspondence generated between 1949 and 1972 by the Commissioner of Safety, Highway Patrol Officers, the Commissioner of Highways and a few state and local officials. The bulk of this correspondence concerns the establishment of speed zones on state, federal and county highways according to Section 59-853 of Tennessee Code Annotated. Also included are examples of correspondence concerning the establishment of a temporary speed zone on an interstate highway under construction and a request to place a traffic light on a state highway.

The record group is arranged according to the Grand Divisions of Tennessee, i.e., West, Middle, and East. There are examples from three counties in each Division, two rural and one urban. The requests for a temporary speed zone and for the traffic light were placed after the speed zone correspondence described in the previous paragraph.
