MICROFILM ONLY

INTRODUCTION

Lobbyist Registration Forms, 1981-1989, consists of five and one half cubic feet of documents filed by lobbyists as required by Tennessee Code Annotated 3-6-103. The registration forms include information such as name of lobbyist and client, business address, telephone number, subject matters on which the registrant will lobby, and a photograph of the registrant. A reporting form filed at the end of the annual meeting of the general assembly includes disclosures of any contributions, gifts, or business arrangements made to the legislative or executive branches of government. The collection has been arranged alphabetically according to lobbyist.

This collection has been microfilmed and the original documents were discarded. The documents in this record group appear to represent the earliest records on this subject that still exist. There are no restrictions on the collection.

SCOPE AND CONTENT

Lobbyist Registration Forms spanning the years 1981-1989, consists of five and one half cubic feet of documents generated as a result of Section 3-6-103, Tennessee Code Annotated. This law states that every person registered under the Tennessee Lobbyist Registration Disclosure Act shall file with the Secretary of State, a registration form and a sworn report concerning his or her lobbying activities. The registration form includes background information on the lobbyist including name and address of lobbyist, phone number, name and address of the lobbyist's client, general categories of subject matter on which the registrant will lobby, and a black and white glossy photograph of the lobbyist. The Lobbyist Reporting Forms are required to be filed through June 30 or the day following the end of the regular annual session of the general assembly whichever is later. The reports are required to be filed no later than thirty days after such date. The report includes the name and address of the lobbyist, the year covered, any contributions, gifts, or business arrangements given or made for the officials of the executive or legislative branches of state government. This collection also included one folder of correspondence filed chronologically. The dates cover 1988-1990 and generally refer to delinquencies on the part of individuals in submitting reports.

Lobbyist Registration Forms are currently maintained by the State Registry of Election Finance. This seven member board was created by statute in 1989 as an independent entity, attached to the Department of State for administrative purposes. The registry, whose members are appointed by the Governor and General Assembly, is responsible for enforcing Tennessee's Lobbyist Financial Disclosure Act of 1975. This law replaced section 3-601 of the Tennessee Code Annotated pertaining to lobbyists.

The collection is arranged alphabetically, then chronologically. Individual files for several years were combined into one file per person during processing, and three cubic feet of excess folders were discarded. The documents in this record group were microfilmed and then disposed of according to Tennessee State RDA and apparently represent the earliest records on this subject that exist. There are no restrictions on this collection
