Date: May 1988
Updated: August 8, 2018

MICROFILMED

SCOPE AND CONTENT

This record group contains a variety of records which were received by the Secretary of State during the time period indicated. The bulk of the documentation is correspondence concerning the election of local officials, payment of fees for services and licenses or requests for information concerning Tennessee. There are smaller groups of correspondence which deal with land records and out-of-state solicitations to receive appointments as commissioners of deeds. Yet another component of this record group is a fair number of receipts generated by the purchase of the published Acts and the Journals of the Legislature.

Included with this register is an index to the names of the correspondence. The receipts are not indexed due to the repetitive nature of the information which they render.
