SCOPE AND CONTENT

Chapter 247 of the Public Acts of 1965 established the Alcoholic Beverage Study Commission “to make studies and recommendations concerning the sale and distribution of alcoholic beverages, making recommendations for any new legislation and/or regulations....” Records of the Alcoholic Beverage Study Commission are complete and fully document the work of the Commission. Transcripts of public hearings and meetings, minutes, committee reports, correspondence, survey results, and published pamphlets were retained.

Testimony from a variety of witnesses before the Commission gives insight into social values, community needs, the economic impact of alcohol, and legal and illegal activities. Occasionally humorous, more often tragic, the testimony gives a picture of confusion, doubt, and searching regarding answers to the problems of alcoholism, crime and delinquency, liquor-by-the-drink, “moonshine” activities, and rehabilitation.

Following the folder descriptions of the series are two indexes, one giving names of witnesses and commission members, and the other showing subjects and their locations within the boxes. In addition to these, the researchers should consult the list of pamphlets for boxes 17 and 18 for specific subjects.
