CONTAINER LIST

Pre-filed legislation consists of copies of House and Senate bills, resolutions and corresponding amendments and fiscal notes. This collection provides the text as originally filed, whether approved or rejected. This set of pre-filed legislation will also include copies of filed amendments, whether adopted, rejected, or simply not acted upon. Fiscal notes are also attached.

The unique benefit from the set of pre-filed bills is that they will have some amendments not found in the original bill or in the House or Senate Journals.

These copies do not substitute for the original bills which officially are retained at TSLA within RG 60. Often the set of pre-filed bills is incomplete.

Amended note to scope and content.
